

Please do not lift the ban on Cross-ownership of a television station, radio station and newspaper. In this time of trouble we have to make sure that the media is presenting the truth -single ownership by one company can only taint the news. You don't want to have to worry about the corporate bottom line when reporting the news. You don't want reporters not following through on stories that would make their corporation look bad. This sets a very bad precedent and should be avoided at all costs.

Please don't weaken our media any further - they are already too corporate as it is, don't lift the last bit of protection we have.

Concerned citizen,

Moiria Giammatteo
